(54) PENCIL TYPE PORTABLE TELEPHONE TERMINAL EQUIPMENT

(57)Abstract:

PROBLEM TO BE SOLVED: To allow the user to input numerals and characters, to conduct on/off hook operation and power on/off operation without using a key board of the pencil type portable telephone set.

SOLUTION: The terminal equipment is provided with a dial shaped input section 2 at an upper part of a pencil type case and a variable resistor 12 turned in interlocking with the input section 2 and numerals and characters are selected by turning of the variable resistor 12. The selected numerals and characters are confirmed in voice or an LCD display. Moreover, a switch 13 is engaged with the variable resistor 12 and the input section 2 is depressed to depress the switch 13 and the input of the selected numeral or character is confirmed and on/off hook operation and power on/off operation are conducted.
